

# Appendix

April 2025

We provide qualitative descriptions of the 8 genres. Note that the values of soft labels are **not** absolute per se. Even for professionals, one track can be interpreted in multiple ways. Soft labels are utilized to indicate “Track  $X$  is genre  $A$  but also expresses some traits of genre  $B$ ”, for example, so more information is contained in the label.

Table 1: Determinants of House Music Sub-genres

| Genre             | Lead Inst. | Chord Inst. | Bass Inst. | Groove | Rhythm | Distortion | Organicity |
|-------------------|------------|-------------|------------|--------|--------|------------|------------|
| Progressive House | ✓          | ✓           | ✓          | 4-5    | 1-3    | 1-2        | 3-5        |
| Future House      | ✓          | ~           | ✓          | 3-4    | 4-5    | 3-4        | 1-3        |
| Bass House        | ✓          | ✗           | ✓          | 2-4    | 3-4    | 4-5        | 1-2        |
| Tech House        | ✗          | ✗           | ✓          | 3-5    | 3-4    | 2-4        | 1-3        |
| Deep House        | ✓          | ~           | ✓          | 2-3    | 1-2    | 1-2        | 2-4        |
| Bigroom           | ✓          | ✗           | ✗          | 1-2    | 1-3    | 4-5        | 1-2        |
| Future Rave       | ✓          | ✗           | ✓          | 4-5    | 3-5    | 2-4        | 1-2        |
| Slap House        | ✓          | ✗           | ✓          | 3-4    | 3-5    | 1-3        | 1-2        |

<sup>a</sup> ✓ denotes “yes”, ✗ denotes “no”, and ~ denotes “uncertain”, which could be either yes or no depending on the track.
